

Fall 2006

To Whom It May Concern:

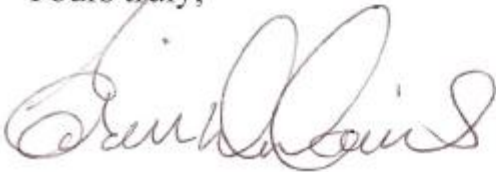

My husband and I have just come through the renovation of two bathrooms in our condo.

Our designer recommended Design-Spec Building Group to carry out his innovative ideas. Because we live in a condo, space and storage are primary concerns. He had demonstrated extraordinary imagination in his designs, which included non-traditional use of storage systems and materials. I'm pleased to say that Design-Spec rose to every challenge during construction.

Nick and Carlos were delightful to deal with, as was every single tradesperson brought in to work in our home. They were all extremely considerate of our unusual lifestyle and schedule and made every effort to accommodate our needs.

The job was on time and on budget, two things which are extremely important to us. Based on our experience, I would heartily recommend Design-Spec Building Group for any renovation or construction project.

Yours truly,
