Re: Recently completed renovations

Dear Nick,

We recently completed some home renovations. As anyone who has embarked on that journey can tell you, there are many bumps along the way. Design-Spec Building Group did an outstanding job for us. At a busy time of year and with a quick deadline they worked tirelessly to complete the job. In custom work we expect a high standard of workmanship but in the case of Design-Spec the outcome was craftsmanship. Nick Malfara sets a high bar for the people who work with him. He expects excellence and they achieve it. A core value which he has instilled in all of his team is courtesy and respect for the client. Every effort was made on a daily basis to leave the worksite clean and tidy.

We can't praise them enough and we are so delighted that we are scheduling further renovations with them.
